

# POTTERY BY SUE DAVAR

"When you  
put your  
hand  
against my  
pots you  
are palm to  
palm with  
the artist."

Nadine  
Gordimer

## Decorative and Functional Stoneware add beauty to your home and food presentations

Sue's work is primarily functional with an intent to bring artful settings to our daily food presentations.

The focus of her present work is an exploration of texture, line and form through one-of-a-kind or limited edition pieces with carved, slipped or sculptural details.

Sue uses a medium-fire stoneware clay fired in

an electric kiln. Her functional ware can be used safely in the oven as long as abrupt temperature changes are avoided.

(Do not place ware directly from freezer into oven.)

It can also be washed in a dishwasher. Please note that over time all glazed ware will be affected if abrasive detergents are used.

Sue lives and works adjacent to Riding Mountain National Park. Her work is continually influenced by the patterns of nature in her surroundings.
